

IN THE CLAIMS

Please cancel the claims 2-5 and claims 7-15. Amend the claims 1 and 6 as follows;

- C1*  
*sub 1*
1. (Newly amended) An improved telescopic leg ladder assembly having two extendable legs, said legs further comprising:  
*assembly*  
*102 with respect to what?*  
*the*  
*interior*  
interior legs and hollow exterior legs, said interior legs snugly fitting into larger exterior legs and being extendable from the exterior legs by a threaded screw mechanism, said screw mechanism allowing the legs to be extended independently of one other.

A leg ladder with two vertical legs;

A plurality of horizontal steps;

Each leg having a telescopic device that allows it to be extended;

A securing locking device that will fix the extended leg of the ladder;

A foot pad attached to the floor pad of the telescopic extension device;

Pads on the upper edges of the ladder; and

A mechanism consisting of sliding rods from the rungs of the ladder in order to hang objects.
